

We would like to introduce, Rejuvenate Physio. Rejuvenate physiotherapy opened in Huntingdale and Armadale in 2018. We have since opened a third clinic in Seville Grove in 2019.

We have 2 physiotherapists working between the clinics and our background stems from sports physiotherapy and chronic pain where we have worked in private practice for about 3 years. Our physio's have experience working with the state netball team, children's sporting groups and in clinical Pilates. Having always had a keen interest in health and fitness, it is a pleasure to be able to help others live a more active lifestyle to enable a better quality of life.
